

US Daycare & Childcare Provider Database

Thank you for purchasing the US Daycare & Childcare Provider Data List from DayCareListUSA.com.

About this list

Most daycare and childcare marketing lists on the market are priced per record, often running \$100-\$400 or more per 1,000 contacts, and typically require a minimum order, a sales call or a custom quote before you even see a final price.

For a small business that just wants usable contact data for an email or postal campaign, that's a lot of friction and cost for a straightforward need. So we compiled a national database of US daycare and childcare providers from reliable public business listings, then cleaned, cross-checked and standardized it by hand for our own use.

Rather than let this work sit unused, we've made it available to others who need reliable daycare and childcare contact data without the enterprise sales process that usually comes with it. There are no sales calls, no quotes, no minimum order and no contract. Pick the region and format you need, pay once, and download it instantly.

What's included

Depending on the version purchased, the database may include information such as:

- Facility Name • Email Address • Phone Number • Physical Address • City • State • Zip Code

Intended uses

This database may be suitable for:

- Business-to-business marketing • Market research • Sales prospecting • Industry analysis • Geographic analysis • CRM enrichment • Business development

It is your responsibility to ensure any use of this data complies with all applicable U.S. federal and state laws and regulations, including the CAN-SPAM Act of 2003 and any applicable state privacy laws.

Data quality

Although considerable effort has been made to validate and cleanse the information, business information changes over time. No database can be guaranteed to remain completely accurate after publication.
